GUTTERS

EUROPANELS
PRODUCER OF SANDWICH PANELS

www.europanels.pl

Complementing Europanels' comprehensive offer is a system of steel gutters. Ideal for any roof, the complete drainage system is designed for new and retrofitted buildings regardless of the type of roofing.

Complementing Europanels' comprehensive offer is a system of steel gutters. Ideal for any roof, the complete drainage system is designed for new and retrofitted buildings regardless of the type of roofing.

The roof area determines the size of the gutter and the number of drainage points to be used. Six gutter colors are currently available to allow the system to match the roofing.
